FULL STACK

2023 - PRESENT

SELF LEARNING

- Self-learning journey: Covered JavaScript, Node.js (backend), and React.js (frontend) while exploring essential technologies
- Gained skills: Proficiency in TaiwindCss , Linux, Nginx, Git and GitHub.
- Passion for learning: Fueled by online courses and real-world projects, developed a versatile skill set for diverse ech challenges.

PERSONAL PROJECTS

SMART-DAIRY (FINAL YEAR PROJECT)

2024 - PRESENT

- Dairy-Direct is an eCommerce platform connecting consumers with verified dairy producers, offering features like batch tracking, subscriptions, and AI-powered fake-review detection to ensure trust and transparency. It promotes sustainability through discounts on near-expiry products and eco-friendly highlights. Admins use a detailed dashboard, while consumers enjoy a secure, seamless shopping experience.

SPOITY VIRAL (FIVER CLIENT)

- This Website was created on the demand of client as he wants a platform where Singers/Users can come and can Promote their songs/albums. The user also used the Spotify API for Searching the songs/Albums which the user wants to Promote and Every Details is Gathered Through Form using the Formic.
- Stripe Payment Gateway was Used in this Project for Secure Payments. The Website if Fully Responsive and User Interactive.

Pak Opportunity Hub (Senior FYP)

- Pak Opportunity Hub is a web platform that centralizes information on government scholarships in Pakistan. It offers features like eligibility checks, agent services for guidance, real-time notifications, and secure payments. Designed for transparency and accessibility.
- I contributed as a frontend developer, focusing on user authentication, interface design, and enhancing user experience.
